

# press release

mg12 is a company that creates design products for architects and lovers of design. Their products are made in Italy and eco friendly without limiting itself in regard to materials or sector.

## **Bombo hand shower brass slide rail**

Design Monica Geronimi e Luca Bosetti

The hand shower brass slide rail is characterized by its essential and minimale shape. It has a strong expressivity where you can read its own ergonomic. Thanks to its thin and slender line, you can adjust it in each space: from the smaller to the wide ones. The chromed brass as main material gives the opportunity to have minimum thickness that gives lightness to all the figure.

## **Bombo shower**

Design Monica Geronimi e Luca Bosetti

Built-in-rain. The continuity shapes ridefines the shower as an element in continuum with architecture.

The mono-element structure gives linearity to the bathroom: the ceiling becomes a horizon continuum line, without any visual obstacle. Available with or without light.
